Additional information No. 1

issued by the Contracting Authority in relation to the **negotiation phase** of the negotiated procedure without publication pursuant to Sec 49 of Act No. 137/2006 Coll., on Public Contracts, as amended

In Prague, on January 22nd, 2014

This additional information concerns the **launching phase** of the above-the-threshold public tender for a **“L2: PW-class laser system with nominal repetition rate of 10 Hz”** being administered in the form of a negotiated procedure without publication; additional information is distributed to all current participants of the negotiated procedure.

The Contracting Authority would like to correct the title under which these tender proceedings are being referred to; the correct title is **“L2: PW-class laser system with nominal repetition rate of 10 Hz.”**

Please note that the previously notified title *“Development and delivery of key subsystems of L2 Stage 1 high repetition rate OPCPA beamline,”* is and will be used only as a description of the subject of the tender rather than its title. This is only a formal correction, not affecting the subject matter of the tender or any steps that you have so far taken within its framework.
