

SEZUAM STAVEBNICH OBJEKTU

The diagram illustrates the seven layers of the OSI model, each with a German label and a corresponding color-coded box:

- 7. Anwendung** (Application): Layer 7, light blue box.
- 6. Präsentation** (Presentation): Layer 6, light green box.
- 5. Sitzungsschicht** (Session): Layer 5, light yellow box.
- 4. Transportschicht** (Transport): Layer 4, light orange box.
- 3. Netzwerkschicht** (Network): Layer 3, light red box.
- 2. Datumschicht** (Data Link): Layer 2, light blue box.
- 1. Physische Schicht** (Physical): Layer 1, light green box.

Below the layers, the text "Vom Bit zum Byte" is written. To the right of the layers, a vertical stack of colored boxes represents the data units at each layer:

- Bit (light green)
- Byte (light blue)
- Packet (light yellow)
- Segment (light orange)
- Message (light red)
- Frame (light blue)
- Signal (light green)
