

MUSHROOM LUMINAIRE LED

with LED Module 540 | symmetric wide distribution (PL1.2s) | up to 3100lm

Luminaire for post-top mounting or mounting to wall arm

- LED with triple-zone faceted reflectors, for uniform, symmetric wide light distribution (PL1.2s); reflective corpus as decorative element and for visual guiding; with transparent cover
- microprocessor-controlled LED operating electronics; according to version with differing control function for lighting management and monitoring
- mast mounting element of diecast aluminium; glass-fibre reinforced polyester canopy element; all parts in Siteco® metallic grey (DB 702S), underside of canopy and corpus of LED module white; cover of PMMA
- protection rating: IP54
- insulation class: II
- service life: 80,000h (L80/B10)
- recommended mounting height: MH= 3...5m
- mast spigot: $d_a \times l = 76 \times 70\text{mm}$ (with reducer: $d_a = 60\text{mm}$)

Orange-coloured light with amber light colour (~2000K) for illuminating conflict zones, designing with light, protecting the environment, lower light pollution and as a replacement for luminaires with sodium vapour lamps (spreader-amber)

IP 54
