\* This is the total price for the delivery and installation of the Equipment, incl. all components, accessories, costs and services related to this part of the Subject of the Performance, with the exception of the costs of the Maintenance Services according to the Price Offer

\*\* This is the hourly rate for the direct performance of activities, not the items listed in the flat rate of fixed costs. The total price of a specific service then consists of the sum of the hours actually worked and the amount of the flat-rate costs derived from the duration of the specific service

\*\*\* This is the price of other costs (in particular, travel, missed time, accommodation and meal costs, etc.) in relation to 1 day and 1 worker in the given work positions. To be added together with the hourly rate, see above.
