

The diagram is a geological cross-section showing three boreholes (328, J7, J6) and their stratigraphic columns. The vertical axis represents elevation in meters [m], ranging from 195 to 210. The horizontal axis represents distance in meters [m], with specific points marked for each borehole: 6.7, 8.1, 21.7, 32.4, 35.2, 42.6, and 50.13. A scale bar at the bottom indicates a distance of 20 meters.

Borehole 328 (Left):

- Elevation: 210.20
- Stratigraphic units (from top to bottom): Q12 (0.9 m), Q14 (2.0 m), Q13 (3.8 m), Q14 (4.3 m), K21 (5.6 m), K22 (6.7 m), K22 (9.5 m).

Borehole J7 (Middle):

- Elevation: 210.00
- Stratigraphic units (from top to bottom): Q11 (2.2 m), Q13 (2.4 m), Q13 (3.0 m), Q12 (4.3 m), Q13 (4.5 m), Q12 (5.1 m), K21 (6.8 m), K22 (7.2 m).

Borehole J6 (Right):

- Elevation: 210.44
- Stratigraphic units (from top to bottom): Q11 (8.8 m), Q12 (8.8 m), Q13 (3.4 m), Q14 (5.1 m), K21 (5.4 m), K22 (5.8 m).

Other Labels:

- SV (Top Left)
- JZ (Top Right)
- JADRAN (Bottom Left)
- JADRAN (Bottom Right)
