

CHANGE OF TENDER DOCUMENTATION NO. 2

Contracting Authority	Fyzikální ústav AV ČR, v. v. i.
Seat	Na Slovance 1999/2, 182 00 Praha 8
Identification No.	68378271
Public Contract name	Software for thermodynamic and kinetic calculations in the field of materials engineering
Type of public contract and procurement procedure	below-threshold public contract for supplies simplified below-threshold procedure
Project	Metamaterials for extremely thermally stressed machine components (METEX) reg. no. CZ.02.01.01/00/23_020/0008501 Operational Programme Jan Amos Komenský (OP JAK)

The contracting authority is adjusting the period of providing maintenance, online support and free software updates from the fixed deadline until the end of 2028 to a new period of 1 year. The reason for this is the possibility of more accurate pricing of the provision of maintenance, online support and free software updates when processing the total bid price in the bid.

For the above reason, the following articles of the tender documentation (TD) and draft contract (Annex No. 2) are amended (changed text is in bold):

TD:

- 1.3 Term
The subject of performance of the Public Contract must be properly delivered and handed over no later than 1 month from the date of conclusion of the contract. Delivery means installation and acceptance by the client. The bid price must include **maintenance, online support and free updates for the entire software solution for at least one year.**
- 4.4 The bid price must include **maintenance, online support and free updates for the entire software solution for at least one year.**
- 5.2 The total bid price must include the entire subject matter of the Public Contract and shall represent a fixed, binding amount as the maximum amount and maximum admissible price, including all fees and other costs that may be associated with the performance provided hereunder, such as installation costs, license payment, **maintenance, online support and free updates for the entire software solution for at least one year.**

Contract draft:

- 3.2.5 provision of a permanent network license (NWL) for all software relevant to all installed individual parts of the Software for at least 1 user, including maintenance, online support and free **updates for the entire software solution for at least one year**;

The bidders are entitled to amend the draft contract submitted in their bids in accordance with the above-mentioned new wording of Article 3.2.5 of the contract. If they submit the original draft contract in their bid, this will not be a defect and, if they are selected as the supplier of the subject of performance, the contract will be concluded with them in the above-mentioned updated wording.

The contracting authority also extends the deadline for submitting bids, i.e. changes the wording of paragraph 2.2 of the tender documentation, which states the deadline for submitting bids, the new wording of which reads as follows:

- 2.2 Bids shall be submitted no later than on **29th September 2025, by 11:00 am**. A bid delivered after this deadline shall not be considered to constitute a properly delivered bid.
