

The sequence of diagrams illustrates the construction of a circle:

- Diagram 1: A center point with a small circle around it. An arrow points from the center to the right, indicating the direction of the radius.
- Diagram 2: The radius line is extended further to the right.
- Diagram 3: The radius line is extended even further to the right.
- Diagram 4: The radius line is extended further to the right.
- Diagram 5: The radius line is extended further to the right.
- Diagram 6: The radius line is extended further to the right.
- Diagram 7: The radius line is extended further to the right.

The drawing illustrates a cable route (KABELOVÝ TRÁSEK) with the following components and data:

- Route Line:** A solid line representing the cable path, with a dashed line indicating a continuation or alternative path.
- Vertical Alignment:** Elevation points are marked along the route, including:
